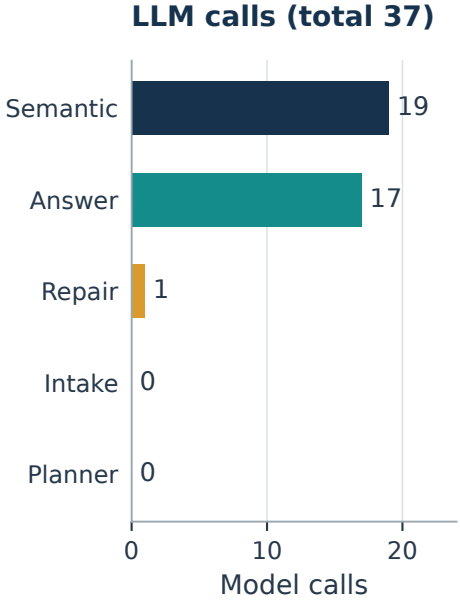
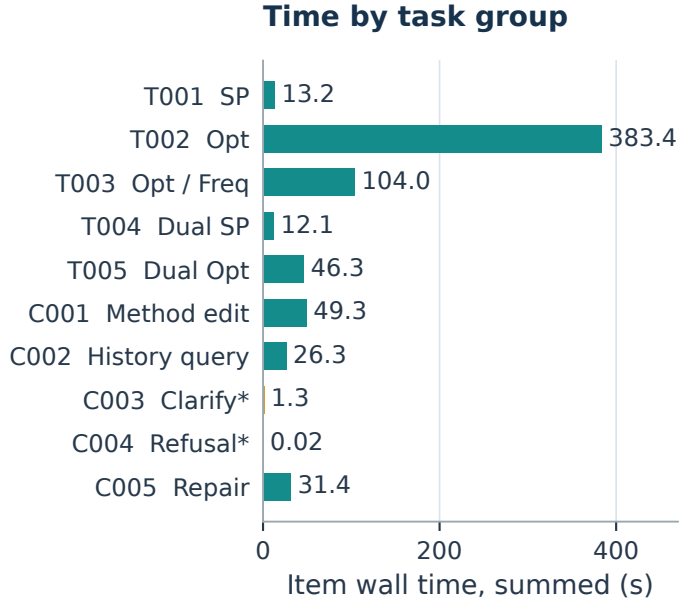
V3 fixed-scenario evaluation: computational costs

18/18 fixed scenarios | 16 compute items | 147,938 model tokens





* Two no-compute scenarios: clarification and refusal (0 ORCA attempts).

23 ORCA attempts include one preset optimization failure and bounded repair.

Summed item times; total elapsed time: 667.55 s. T002 includes 2 name cases.

Fixed prompts; scripted confirmations | DeepSeek Flash | 2026-09-24
